

The doctor may ask for you to have some blood tests. We can put cream on your hands and arms so that taking blood is not so painful.

If you have any comments or questions, please speak to the doctor completing your examination.

Review due Jan 2027

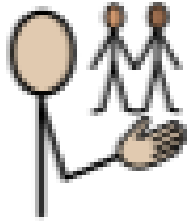

Patient Information Leaflet

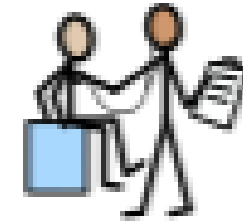

Coming for a Child Protection Medical

Please speak to a member of staff if you need this leaflet in large print, braille, audio or another language

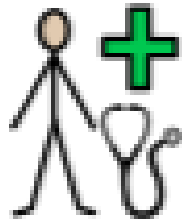

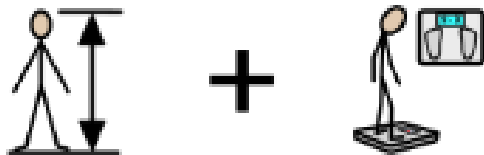

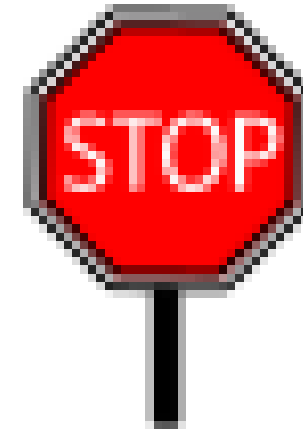

A social worker has asked the doctor to complete a medical examination for you.

The doctor will check your body for any bruises or marks. They will also listen to your heart and lungs to make sure they are okay.

The doctor will ask your parent some questions about your health.

You will have your height and weight measured before you see the doctor.

You can ask the doctor to stop the medical examination at anytime.
