Snapchat is often used to keep in touch with friends and as a way to send them videos, images and messages. **People that you may not know might also try and contact you so think about the following:**

- Who is on your friends list?
- Who are you letting into your life?
- Do you know who is watching you?

If you accept a friend request from someone you don't know, they may be able to monitor your movements without your knowledge, so it is important to be safe when using this app.

**Just because you know
someone from social
media, it does not
mean you know them.**

Follow these tips to stay safe on Snapchat

- Ensure your **location settings** are **locked down**.
- Keep your **personal information private**.
- **Don't accept** friend requests from **strangers** and question why people who you don't know are contacting you.
- **Do not** meet up with people you **do not know** who have contacted you online.
- **Do not** be pressured into something that makes **you feel uncomfortable**.
- If anything happens that has **made you uncomfortable** or if there is something you're not sure about, **you don't need to hide** it or pretend it hasn't happened. **Speak to an adult you trust**.
